Course description:

This course facilitates the acquisition of a broad vocabulary and awareness of cultural customs and trends pertaining to the healthcare field. Taught in Spanish.

Course learning outcomes:

Upon successful completion of the course, students will be able to:

1. **Communicate** effectively in Spanish within clinical settings by applying medical vocabulary, grammatical structures, and culturally appropriate language to patient interactions.
2. **Analyze** how cultural beliefs, values, and healthcare practices in Spanish-speaking communities affect communication and patient care.
3. **Evaluate** ethical and intercultural challenges in bilingual healthcare scenarios and propose informed, culturally sensitive responses.
4. **Create** patient-centered healthcare materials in Spanish that demonstrate linguistic accuracy and cultural awareness.
5. **Integrate** and **interpret** diverse sources, including testimonies and scholarly texts, to explore how language, identity, and access to care intersect in Hispanic healthcare contexts.
6. **Reflect** critically on the human experience of illness, caregiving, and communication across languages and cultures, drawing from course readings and discussions.
