Attendance policy:

There is no formal attendance grade in this course. The decision to attend class is your choice alone. That said, experience and research suggest that, for most students, course grades and value derived are directly proportional to student attendance, reading, and engaged participation. Of course, as there is a participation grade, which will reflect your regular, thoughtful, informed participation in class discussion, it will be impossible to earn full participation marks while not attending class *and* participating routinely.

Academic honesty/integrity statement:

Students are expected to maintain the highest standards of academic integrity. All work submitted must be original and properly cited. Plagiarism, cheating, or any form of academic dishonesty will result in immediate consequences as outlined in the university's academic integrity policy. According to the Georgia Tech Student Affairs Code of Conduct, plagiarism "[includes] submission of material that is wholly or substantially identical to that created or published by another person or persons, without adequate credit notations indicating the authorship."^[1] It is the act of appropriating the work of another, or parts of passages of his or her writings, or language or ideas of the same, and passing them off as a product of one's own. It involves the deliberate or accidental use of any outside source without proper acknowledgment. Plagiarism is scholarly misconduct whether it occurs in any work, published or unpublished, or in any application for funding. Any student suspected of cheating or plagiarism will be reported to the Office of Student Integrity, who will investigate the incident and identify the appropriate penalty. This policy includes students whose papers are flagged as having been AI generated. The GT Honor Code is available online (<http://policylibrary.gatech.edu/student-affairs/academic-honor-code>)
