Course Catalog Listing

MGT 4910. Special Problems. 1-3 Credit Hours.

Independent study conducted for one student under the guidance of a faculty member.

Course Description

This course will be for individual students who have a special interest in researching issues in international accounting. The details of the course will be determined by faculty-student conference.

Attendance/Participation: This will be an asynchronous format so there is no attendance or participation component.

Academic Honor Code: Georgia Tech has an Academic Honor Code that engages both faculty and students in a pact that they will maintain and uphold the integrity of the academic process. Students in this class are expected to adhere to the Honor Code. Here is the link for more information:

<https://policylibrary.gatech.edu/student-life/academic-honor-code>

Any student suspected of cheating or plagiarism on an exam or other class assignment will be reported to the Office of Student Integrity, who will investigate the incident and identify the appropriate penalty for violations.

Accommodations for individuals with disabilities: If you are a student with learning needs that require special accommodation, please contact the Office of Disability Services at <https://disabilityservices.gatech.edu/> to make an appointment to discuss your special needs and to obtain an accommodation letter. This letter will be used to make sure your learning needs are fully supported.

Student-faculty expectations: At Georgia Tech we believe that it is important to continually strive for an atmosphere of mutual respect, acknowledgement, and responsibility between faculty members and the student body. See <https://catalog.gatech.edu/rules/21/> for an articulation of some basic expectations that we can have of each other. In the end, simple respect for knowledge, hard work, and cordial interactions will help build the environment we seek. It is important to remain committed to the ideals of Georgia Tech while in this class.
