

**MP 8903 – Medical Physics Special Problem  
Fall Semester, 2026**

**Instructor:** Dr. C-K Chris Wang, Boggs, Room 3-86, Tel.: (404) 894-3727, E-mail:  
[chris.wang@nre.gatech.edu](mailto:chris.wang@nre.gatech.edu)

**Course**

**Descripton:** This course is project-based, requiring each student to first propose an individual research or clinical project. Students are encouraged to use resources from their own clinical workplaces; however, those without access to such facilities should consult with a Medical Physics (MP) faculty member to develop a suitable project.

**Course Learning**

**Outcomes:** Enrollment in this course allows students to bridge the gap between theory and practice by applying classroom knowledge to a dedicated research or clinical project.

**Lectures:** N/A

**Office Hours:** By appointment

**Textbook:** None

**Grading policy:** The final grade will be based on the effective execution of project-related tasks and the overall quality of the final project report.

**Class website:** N/A
