

## Independent Study Syllabus ARCH 8903

Fall 2026

This independent study is with Jeff Jensen. He will be creating GIS data and layers for his PhD on historic federal buildings and their influence on design.

### Objectives:

Learn the basics of GIS and mapping, data collection and GIS application development.

### Schedule:

We will meet bi-weekly to review progress.

### Assessment:

Jeff will provide examples of his work produced throughout the semester and will be assessed on the completeness and quality of his work.
