

Statistical Analysis for Public Policy

Last Updated: Thu, 01/08/2026

Course prefix: PUBP

Course number: 3120

Section: EG

CRN

30379

Instructor first name: Ryan

Instructor last name: Anthony

Semester: Spring

Academic year: 2026

Course description:

This course serves as an introduction to probability, descriptive statistics, inferential statistics, and spreadsheets. The

focus of the course is the application of basic statistical concepts to public policy and administration. It is intended

for students who have a wide range of methodological backgrounds (e.g. mathematics, statistics, econometrics, and

computer science).

Academic honesty/integrity statement:

Students are expected to maintain the highest standards of academic integrity. All work submitted must be original and properly cited. Plagiarism, cheating, or any form of academic dishonesty will result in immediate consequences as outlined in the university's academic integrity policy.

Georgia Tech aims to cultivate a community based on trust, academic integrity, and honor. Students are expected to

act according to the highest ethical standards. For information on Georgia Tech's Academic Honor Code, please

visit the GT Policy Library. Any student suspected of cheating or plagiarizing on a quiz, exam, or assignment will

be reported to the Office of Student Integrity, who will investigate the incident and identify the appropriate penalty

for violations.
