

Deep Learning

Last Updated: Mon, 03/30/2026

Course prefix: CS

Course number: 7643

Section: Q

CRN

55391

Instructor first name: Zsolt

Instructor last name: Kira

Semester: Summer

Academic year: 2026

Catalog description: This course will cover theory and practice of deep learning, including neural network and structured models, optimization algorithms, and applications to perception and Artificial Intelligence.

Academic honesty/integrity statement:

Students are expected to maintain the highest standards of academic integrity. All work submitted must be original and properly cited. Plagiarism, cheating, or any form of academic dishonesty will result in immediate consequences as outlined in the university's academic integrity policy.
