Course number: 8903

Section: ODC

CRN

93253

Instructor first name: Nicholas

Instructor last name: Lytle

Semester: Fall

Course description: Small-group or individual investigation of advanced topics in computing. Guided study and research.

Academic honesty/integrity statement:

Students are expected to maintain the highest standards of academic integrity. All work submitted must be original and properly cited. Plagiarism, cheating, or any form of academic dishonesty will result in immediate consequences as outlined in the university's academic integrity policy.

Core IMPACTS statement(s) (if applicable): This is a Core IMPACTS course that is part of the Social Sciences area. Core IMPACTS refers to the core curriculum, which provides students with essential knowledge in foundational academic areas. This course will help master course content, and support students' broad academic and career goals. This course should direct students toward a broad Orienting Question: • How do I understand human experiences and connections? In addition, this course should help students develop the following core competencies that help students make connections between their learning and their future lives and careers: • Critical Thinking • Information Literacy • Inquiry and Analysis • Problem-Solving
