

Collaborative Team Skills for Software Development

Last Updated: Mon, 01/12/2026

Course prefix: COMP-1006P-AU4

Course number: 26345

Section: 01

CRN

26345

Instructor first name: Dante

Instructor last name: Ciolfi

Semester: Spring

Academic year: 2026

Course description:

This course provides a survey of current literature regarding collaborative team skills for software development. Fifteen (15) published research papers are at the core of the course. Each week, students will read one of these papers and write a short reflection paper on the relevant topic. Question prompts are provided for each paper. These prompts will serve as focal points for the weekly synchronous video meeting discussion.

Academic honesty/integrity statement:

Students are expected to maintain the highest standards of academic integrity. All work submitted must be original and properly cited. Plagiarism, cheating, or any form of academic dishonesty will result in immediate consequences as outlined in the university's academic integrity policy.
